

**DIABETES AUSTRALIA RESEARCH PROGRAM
2018 GRANT ROUND
APPLICATIONS NOW OPEN**

Diabetes Australia is the national body for people affected by all types of diabetes. We are committed to reducing the impact of diabetes. This year the Diabetes Australia Research Program should provide over \$3.6 million to vital diabetes research projects across Australia.

Applications for the 2018 Grant Round are now open and projects across all areas of diabetes research will be considered. Projects focused on self-monitoring & self-management of diabetes, Aboriginal and Torres Strait Islanders and diabetes, and behavioural research are encouraged.

Grants may be awarded in the following categories:

- two **\$150,000 Millennium Awards** - one for type 1 diabetes and one for type 2 diabetes; and
 - an unspecified number of **General Grants**, up to **\$60,000** per grant

Applications close Friday, 5 May 2017

Application forms and further information are available at www.diabetesaustralia.com.au/research
