THE WORLD DIABETES CONGRESS 2013

The World Diabetes Congress is one of the world’s largest health-related events. It brings together healthcare professionals, diabetes associations, policy-makers and companies to share the latest findings in diabetes research and best practice.

DATES & LOCATION

2 to 6 December 2013
Melbourne Convention and Exhibition Centre (MCEC)
Melbourne, Australia

AGENDA

The biennial event will focus on a strong scientific program combined with debates, teaching lectures, workshops and presentations on the latest trends and discoveries in the field of Diabetes. Other related activities, including satellite symposia, exhibitions and affiliated events, will contribute to an exceptional opportunity for professional development and networking. Beyond scientific research, the event will also strengthen the global diabetes community and link the work of member associations, people with diabetes, and health professionals to global advocacy to improve the lives of people with diabetes.

SCIENTIFIC PROGRAMME

Programme Chair: Paul Zimmet

- 7 programme streams

ABOUT IDF

The International Diabetes Federation (IDF) is an umbrella organization of over 200 national diabetes associations in over 160 countries. It represents the interests of the growing number of people with diabetes and those at risk. The Federation has been leading the global diabetes community since 1950 and its mission is to promote diabetes care, prevention and a cure worldwide. For more information please visit www.idf.org.
